Meridian Stainless Steel Straight Front Uni-Basin - ADA Compliant

Meridian Stainless Steel Straight Front Uni-Basins are engineered to combine the look and feel of commercial-grade designer basins and countertops with the durability and economy of group fixtures. Each standard height Washbasin complies with ANSI, UFAS and ADA requirements. Compliance is subject to the interpretation and requirements of the local code authority.

Housing is heavy gage, type 304 stainless steel and is polished to a satin finish. Countertop, backsplash and housing feature fully welded, seamless corners.

Integral Basin is of a round design, (15-3/4" diameter x 5" deep) and includes a satin finish. Basin includes grid strainer, waste piping and 1-1/2" P-trap.

- **H Hand Operation** includes a pressure balancing mixing valve with a backsplash mounted metering Air-Control pushbutton and a backsplash mounted stainless steel tubular spout with a 0.5 GPM flow control.

- **SO Sensor Operation** includes an individual solenoid valve activated by an infrared sensor with a pressure balancing mixing valve and a deck mounted stainless steel tubular spout with a 0.5 GPM flow control. A plug-in transformer is included.

Pressure Balancing Mixing Valve delivers constant water flow by compensating for pressure fluctuations. Valve is to be field set to 105° Fahrenheit and includes checkstop and strainer assemblies. Operating range is 30 - 100 PSI.

Off-Floor Models include a trap enclosure to conceal hot and cold mixing valve assembly and P-trap. Enclosure is fabricated of heavy gage, type 304 stainless steel with a satin finish. Wall requires adequate backing to support Washbasin.

On-Floor Models include a pedestal base with stainless steel frame, stainless steel scuff panel and black vinylclad, galvanized steel enclosure. Enclosure conceals valve, piping, supply and waste connections. Pedestal base is wall mounted and supported on-floor. An enclosed bottom (- EB) is provided standard for on-floor models.

- **PDM Pump Type Soap Dispenser** is optionally available for liquid and lotion type soaps. Dispenser is deck mounted with an under-the-counter reservoir and top refill feature for ease of maintenance.
