Shower Base With Integral Threshold, Rectangular Fixtures

Shower Base is an attractive, easy to maintain, spacious shower receptacle. It is designed for durability and ease of installation. **ACORN Terrazzo-Ware™** precast shower bases provide flexibility in configuration and size as required by the design of the building and the specific installation. Custom sizes and colors are also available.

Integral Threshold provides an attractive entry into the shower. The 3" wide threshold allows installation of a shower door. The three non-threshold sides have galvanized tiling flanges which extend at least 1½" above the 1¼" wide shoulder.

Construction is one piece, precast terrazzo composed of marble chips cast in Portland cement to provide a compressive strength of at least 3,000 PSI seven days after casting. The shower base surface is ground smooth and sealed to provide years of service.

Integral Drain is supplied with a removable, stainless steel grid strainer and provides for an inside caulked connection to a 2" pipe. The shower base has coved corners and is pitched to the drain outlet to provide positive drainage. A vandal resistant strainer is optionally available.

GUIDE SPECIFICATION

Provide and install an **ACORN Integral Threshold Shower Base** (specify model number and options). Shower Base shall be made of precast terrazzo to produce a compressive strength of not less than 3,000 PSI seven days after casting. Base shall be ground smooth and sealed. No air holes or pits shall be allowed on the finished surface. Base shall have coved corners and be pitched to the drain outlet for positive drainage. Integral drain shall have a stainless steel strainer and provide for an inside caulked connection to a 2" pipe. The manufacturer will provide to the installer the necessary installation instruction.
