

Option -DIV-FH

Diverter Valve with Fixed Head in Lieu of Hand Shower -

This option is only available for Zenith built-in 500 series showers. It provides a diverter valve and a fixed shower head. When this option is specified, the shower nozzle options specified (i.e. -H, -Y, -ZZ, etc.) will be applied to both the standard and the secondary shower head.

Please visit www.acorneng.com for most current specifications.
