

## Option -QD | -QD-PSO

## **-QD Quick Disconnect**

This option provides a male and female stainless steel quick disconnect coupler assembly to allow for easy removal of the Hand Shower and Hose assembly, possibly for storage to prevent vandalism. Standard -QD model will allow water to flow through the Socket end when user diverts water to outlet with Flex Shower Hose removed.

## -QD-PSO Quick Disconnect with Positive Shut-Off

This option provides a male and female stainless steel quick disconnect coupler assembly to allow for easy removal of the Hand Shower and Hose assembly, possibly for storage to prevent vandalism. When the Plug end with Hose is removed the remaining Socket end will not allow water to flow through when diverted to the Hand Shower.
