

## Option -BS

### **Built-In Liquid Soap System -**

Specifying this option provides an integral soap tank, factory pre-piped, and installed within the shower system. The liquid soap is piped to dispensers. Acme Showers are furnished with one 6 qt. tank per 6 to 8 stations, dispensers at each station. Apex Showers, when specified for 2 or 3 stations, have a 2 qt. tank, and a single station model is furnished with a 1 qt. tank. Dispensers are supplied for each soap station. Classic and Capital Showers are provided with an approximate 1 gal. capacity tank. The exact size is affected by shower supply configuration.
