

## Option -DMB-BPH

### Deck Mounted Bubbler, Hemispherical -

Use of this option provides a vandal and suicide resistant drinking bubbler which is designed to prevent use as a suicide device. Additionally, the bubbler design inhibits its use as a device to dislocate and remove handcuffs. Compliance is subject to the requirements and interpretation of the local code authority. Bubbler is made from type 303 stainless steel, includes a satin finish and conforms with lead free requirements for NSF61, Section 9, 1997 Section 9, 1997 and Federal Public Law 111-380.

On Comby units, when used as an alternate to the deck mounted spout, this option allows the bubbler to be used for drinking. On lavatories, the -DMB option provides an ADA compliant bubbler when mounted near the front edge.

### Specifications:

Flow Rate: 0.7 GPM
