

Option -DV

Liquid/Lotion Soap Dispensers -

This option provides sprayhead mounted, gravity fed, vertical soap dispensers, centrally located below a six quart soap tank positioned within the washfountain sprayhead. Washfountain sprayhead above, shown for reference only.

Soap Specifications:

Dispensers are intended to accommodate commercially available all-purpose soaps, synthetic detergents and anti-bacteria soaps containing PCMX and/or Triclosan. Dispensers are NOT designed for use with alcohol based sanitizers and should be free of choride and pH-neutral.

Please visit www.acorneng.com for most current specifications.
