

## Option -LD

### Less Drain Slots -

This option eliminates the drain slots located at the base of the column when using an area drain or a drain with dome grate. When specified for an area drain, the floor must be sloped away from the column to the drain. Not applicable for 600 Series column showers because no drain slots are provided.

Please visit [www.acorneng.com](http://www.acorneng.com) for most current specifications.
