

Option -TF1 , 2, & 3

Tiling Flange -

This option allows for a tiled wall application and provides an integral metal flange for the stainless steel and terrazzo mop sinks meant to protect the wall from moisture that may collect on the shoulder and allows for tiled wall applications. Tiling flange(s) made of galvanized steel and are factory installed extending 1" above the shoulder, or based on the customer specification.

Please visit www.acorneng.com for most current specifications.
