

Option -MA

Manifold Air-Control Valve -

Air-Control valve assemblies intended for use with Lavatories and Showers, may be provided with a manifold to serve up to four water discharge units from a single supply inlet (as shown above for -04-MH-MA2 Hot & Cold valve, metering Hot side only). The valve assembly can be remotely located up to 10 feet away from the actuation pushbuttons. Manifold valve assemblies are indicated as -MA2 for Two Discharge Units, -MA3 for Three Discharge Units, and an -MA4 for Four Discharge Units. Valves are available with -03 Single Temperature manifolds or -04 Hot & Cold valve manifolds. *Not intended for use with flush valves.
