Penal-Pak - Wall Shower

Shower is arranged to be installed on finished wall and serviced from an accessible pipe chase. Back of Shower is provided with anchor tappings. Optional Wall Sleeve or Metal Template is recommended for all installations for required wall openings. Fixture is fabricated from 14 gauge, type 304 stainless steel with a #4 satin finish.

Showerhead is chrome plated brass and is vandal-resistant. The Nozzle threaded into the body and then locked into place by a Set Screw. The spray pattern can only be changed by use of an Allen wrench inserted through the Nozzle.

Valve is a pneumatically operated, pushbutton Air-Control Valve using atmospheric air. Pushbutton is vandal-resistant and requires less than 5 pounds of force to activate Valve. Valve is metering, non-hold open type. Valve timing is adjustable from 5 to 60 seconds. Valve includes a 1.6 GPM flow restrictor and can be remotely located up to 10 feet from the operating Pushbutton. Valve conforms with lead-free requirements of NSF61, Section 9, 1997.

Regularly furnished items include an Air-Control Metering Valve, a Showerhead and Mounting Hardware.
