CORTERRA® WASH BASINS

## Hi-Lo™

**NEW Multi-Station  
Hand Washing Systems**

*Model 3752*

*23 5/8" H x 60" W*

Meridian Hi-Lo™ Wash basins have a Corterra® solid surface top, stainless steel cover, and integrated lavy bowl with overflow. Both two and three station models are included in left or right hand configurations. The versatility and modern aesthetics of this model provide the specifier with a code-compliant product that is ideal for any commercial or institutional environment. Wash basins are furnished complete with sensor-operated faucets, a temperature/pressure balancing mixing valve for compliance to ASSE 1016–2005, check stops, supply, waste connections and a 1-1/2" single P-trap.

**Meridian Corterra® Wash basins** combine durable, commercial-grade countertops and multiple basins with the style, flexibility and accessibility required in today's restroom designs. Our countertops and basins are constructed from Corterra® cast polyester resin (with aluminum trihydrate and other fillers); in addition, they conform to ANSI Z124.3 and ANSI Z124.6 standards for load ratings. Each basin is equipped with its own grid strainer and includes the waste piping assembly with a single waste outlet 1-1/2" P-trap.
