

REPRESENTATIVE'S GUIDE TO USING THE PRESENTATION FOLDER

This guide will help you prepare the Controls Presentation folder for the most effective presentation of the Controls line to a specifying engineer. You'll include submittal sheets printed off the website, assuring the most up-to-date product information as well as other important documents. A space on the back cover allows you to identify yourself as our local representative.

Please complete the Presentation Folder by printing and including the following documents, as described below:

Print the product submittals from the Acorn Controls website for:

The Command Station Go to: <http://www.acorneng.com/uploads/fileLibrary/CSMV.pdf>

SV16 Go to: <http://www.acorneng.com/uploads/fileLibrary/SV16.pdf>

ST70 Go to: <http://www.acorneng.com/uploads/fileLibrary/ST70.pdf>

ST7069 Go to: <http://www.acorneng.com/uploads/fileLibrary/ST7069.pdf>

ET71-1 Go to: <http://www.acorneng.com/uploads/fileLibrary/ET71-SERIES.pdf>

MV17 Go to: <http://www.acorneng.com/uploads/fileLibrary/MV17-SERIES.pdf>

SFMV (pages 1 and 2 only) Go to: <http://www.acorneng.com/uploads/fileLibrary/SFMV.pdf>

Staple a set of the above documents and place them in one of the internal pockets.

Create a second set of documents consisting of these documents, available from Joe Penza:

ASSE Standard Chart

Acorn Controls - Frequently Asked Questions

ASSE Standards - issues and solutions

Legionella Growth Chart

Acorn Controls recommended Piping Diagram

Insert these documents in the internal pocket you did not use for the other document set.

Feel free to add documents you feel might be beneficial, that are not mentioned above, for the benefit of Controls or other MGI lines you represent.
