Model S2160-PE21-RA
Barrier Free, Combination Station, Recessed Activation, Eye/Face Wash, Vertically Mounted Emergency Shower, Stainless Steel Showerhead

SPECIFICATIONS:
Model S2160-PE21-RA is a barrier free, recessed activated, eye/face wash with ABS plastic eye/face wash spray heads and a vertically mounted emergency shower with a stainless steel showerhead. Eye/face wash swings down over the floor from the recessed cabinet and the water flow is activated automatically. The eye/face wash flow is terminated once the unit has been swung back up into its original position for storage.

Note: When installed at the appropriate height, unit may comply with some but not all requirements for ADA.

STANDARD EQUIPMENT:
Showerhead: Stainless steel, 8" diameter showerhead with a 20 gpm flow regulator.
Shower Valve: 1" rough chrome plated brass stay-open ball valve installed inside a wall mounted, fully recessed stainless steel enclosure with a vandal resistant access panel and an actuator that remains fully recessed, even when the unit is activated.
Shower Water Supply: 1" NPT female threaded brass inlet.
Spray Head Assembly: ABS yellow plastic eye/face wash heads, internal flow controls and filters to remove debris from the water. An anti-microbial agent is molded into the ABS material, providing integrated protection.
Eye/Face Wash Valve: Swing down valve has a 316 stainless steel valve housing and is mounted inside the recessed, wall mounted enclosure and has a 50 mesh inline strainer.
Eye/Face Wash Water Supply: 1/2" NPT female threaded brass inlet.
Piping: Schedule 40, 1" galvanized steel pipe, yellow powder coated finish.
Universal Sign: ANSI compliant, vertical identification sign.
Weekly Test Tag: A waterproof test card to record the date and inspector's name for weekly functional testing of the unit.

OPTIONAL ACCESSORIES:
Additional costs may be incurred

- AL3 Electric alarm for recessed laboratory applications
- AS All stainless steel
- ET71-2-BVS-OTG Thermostatic mixing valve is ASSE Listed per the ASSE 1071 standard. The tepid output water complies with ANSI Z358.1 standard. Valve includes Ball Valve Shut-offs, Outlet Temperature Gauge
- FLW1 Flow switch, single pole
- MC3 Modesty curtain for wall showers
- PAN Waste water drain pan (eye/face wash only)
- SDC Stainless steel dust covers
- SV1 Stainless steel 1" ball valve
