Wall Mounted Hand Wash Trough

Acorn's Stainless-Steel Wall Mounted Hand-Wash Trough is designed to assist with public safety in areas where hand washing facilities are required. The cost-effective design saves on space and is ideal for use in Emergency Triage Facilities, the entrance to public buildings of all types or to expand the number of existing Hand-Wash Stations.

Trough is wall mounted and available in several width and spacing configurations to accommodate one to four persons. Deck is pre-drilled at each station with (3) hole punching for a 4" Centerset Faucet. A pre-drilled Backsplash return is provided for mounting unit to a reinforced wall. Basin is formed to facilitate drainage and is punched to accept a 1-1/2" Drain Assembly. Unit is fabricated from 16 gauge, type 304 stainless steel with exposed surfaces polished to a #4 satin finish.

Front Support Legs are optionally available to provide support in addition to wall mounting. Front Supports are intended for "light duty" installations less prone to vandalism. Legs are fabricated from 1-1/2" diameter, heavy gage, type 304 stainless steel tubing. Each leg attaches beneath the trough rim and may be specified for rim heights ranging from 24", 30" or 34" to accommodate users from child to adult. An adjustable foot to accommodate uneven floor surfaces is included.

Four Leg Frame Assembly option includes a Support Frame consisting of four Legs and a heavy gauge, stainless steel Shelf to increase the Troughs utility. The entire assembly serves to unitize the components and provide the Hand Wash Trough with the greatest support and is ideal for high traffic installations. Overall Rim height with the Frame Assembly is fixed at 34".

Faucet selections are optionally available and include: Single Temp Battery Powered Sensor Operated Faucet with Stainless Steel "J" Spout and Deck Plate for 4" Centerset punching; Hot and Cold Gooseneck Spout with Wrist Blade Handles; Hot and Cold Sink Spout with Wrist Blade Handles; Single Temp Pushbutton Metering Spout and Deck Plate for 4" Centerset punching. Faucets are intended for 4" Centerset punching provided on Trough. All Faucets meet NSF and Lead-Free Standards and include a 0.5 GPM (1.9 LPM) Flow Control.

Splash Guard option is for use with multi-person Trough units and consists of a stainless steel partition to provide a more personal hand washing space for users. Splash Guard mounts to back wall and would be not suitable for use with free standing Trough applications.

Enviro-Glaze® Powder Coated Color is optionally available in EG-10 Snow White to provide a functional alternative to stainless steel finish and is provided for Trough and all optional components including Legs, Support Frame and Splash Guard(s).

Additional Options include a Daisy (Drain) Strainer with Tailpiece and a P-trap Assembly made of Plastic or Chrome Plated Brass. A 10" diameter, self sticking, bright yellow "Wash Your Hands" Decal is also available.

Third Party Certification of the Hand-Wash Trough units exists for compliance with Uniform Plumbing Code (UPC®), National Plumbing Code of Canada (cUPC®) and ASME A112.19.3.

Wash-Ware® SW000 Series: Wall Mounted Hand Wash Trough

MODEL NUMBER AND OPTIONS SELECTION

BASE MODEL NUMBER (Faucet Not Included)

- SW130** Hand Wash Trough, 1 User, 30" Wide
- SW260** Hand Wash Trough, 2 User, 60" Wide
- SW2102** Hand Wash Trough, 2 User, 102" Wide
- SW390** Hand Wash Trough, 3 User, 90" Wide
- SW4120** Hand Wash Trough, 4 User, 120" Wide

Faucets (Optional)

- SW000-F50 H&C Wristblade Faucet, Gooseneck Spout
- SW000-F51 H&C Wristblade Faucet, Spout
- SW000-F60 S/T Sensor Operated Faucet, J Spout, Plate
