CORTERRA[®]

C O L O R S A M P L E S

Corterra is a revolutionary solid surface polymer bio-resin that comes in a variety of attractive color options to match any surrounding décor. Corterra provides a chic yet durable finish to a multitude of MGI products. These products include Acorn's Meridian[®] EDGE™ basin, countertops and more. Aside from luxury aesthetics, Corterra is incredibly eco-friendly and uses a minimum of 15% post-consumer recycled material, as well as a minimum of 5% rapidly renewable material derived from bio-based sources. Corterra is sleek, sturdy and ensures universal aesthetics to last for years.
